

Clench

Evaporator Cleaner with Anticorrosion Power

The Evaporator Cleaner with Anticorrosion Power Clench is a product of rapid application and effectiveness to treat indoor units, efficient as an acid cleaner but more safe. Easily removes organic residues, grease, stubborn dirt and corrosion, preventing even its new formation. It is the ideal product to restore neglected systems or facilities subjects to strong environmental aggressions such as kitchens, food production, frying areas or slaughterhouses.

Clench can be frequently used to keep the efficiency of the air conditioning system and the correct sanitisation of the surrounding interior.

Instructions: Dilute Clench 1:5 with water. Spray the product on the surface to be cleaned, wait five minutes and then rinse thoroughly. Dry the surface with a clean cloth. In case of strong corrosions, facilitate the removal with an abrasive material. Avoid contact with delicate materials.

Clench must be used by experienced professionals, provided with the specific personal protective equipments.
